- Race, Gender, and Marine Sciences
- Indigenous Ocean and Coast

Environmental Sciences
Ocean Science
Natural Resources
Fisheries and Wildlife
Marine Biology
Zoology

LEARNING WITHOUT LIMITS

Department of Fisheries and Wildlife

NEW UNDERGRADUATE MINOR: Marine Conservation and Management

Our Marine Conservation and Management Minor means you get more out of your degree at Oregon State. Now you can focus on marine vertebrates, conservation science, and management of living resources. Students in this minor have the opportunity to complete courses on the coast in Newport, Oregon. Study, learn, innovate - you're the next step in creating a healthy planet, healthy economy, and healthy people.

Internship and research experiences

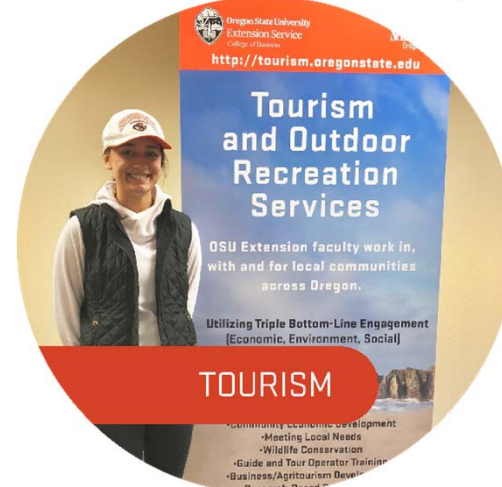

HMSC - Newport

Portland (in progress)
